Digestive System Activity
Part 1
Create a story that follows the digestion of a Ham (protein) and Cheese (fat) sandwich on white Bread (carbohydrate) with Lettuce (fiber). Trace the journey all the way through the alimentary canal. Use all of the terms below. Number each term as you use it with a subscript. Be as creative as you care to, but use every anatomical and chemical term.

Anatomical Terms:

Chemical Terms:
Salivary Amylase, Pepsin, Hydrochloric Acid, Trypsin, Bile, Pancreatic Amylase, Pancreatic Lipase, Carbohydrate, Protein, Fat, Cellulose, Chyme
