4. Figure 16–1 is a sagittal view of the male reproductive structures. First, identify the following organs on the figure by placing each term at the end of the appropriate leader line.

- Bulbourethral gland
- Corpus cavernosum
- Corpus spongiosum
- Ductus deferens
- Glans penis

- Ejaculatory duct
- Epididymis
- Prepuce
- Prostate
- Urethra
- Scrotum
- Seminal vesicle
- Testis

Figure 16–1
Figure 16–5 is a sagittal view of the female reproductive organs. First, label all structures on the figure provided with leader lines. Then select different colors for the following structures, and use them to color the coding circles and corresponding structures on the figure.

- Lining of the uterus, endometrium
- Muscular layer of the uterus, myometrium
- Pathway along which an egg travels from the time of its release to its implantation
- Ligament helping to anchor the uterus
- Structure producing female hormones and gametes
- Homologue of the male scrotum
